

**NEW YORK STATE YOUTH BEEF
PROJECT RECORD**

(Optional Photograph of Project)

Record completed for _____, 20__ through _____. 20__.

Youth's Name

Street Address

_____, _____
Town State Zip Code County of Residence

Age Birthdate # of Years in Project Area(including this year)

Club/Youth Organization

Project Leader/Youth Organization Leader

Telephone Number

Directions for Completion:

While you may bring several animals to the Fair, pick only one animal and complete this record for him/her. Feel free to type the answers on your computer or add additional sheets.

Project Selection:

Please tell the story of your project. Please include the following:

What is the breed?

What is it's name and birthdate?

Why did you select this breed?

How did you obtain this animal/

If project is purchased, how did you decide how much to pay?

What were some important things you considered when you selected this project?

Reproduction: (Steer exhibitors, please omit this section)

Was your project bred this year?

At what age?

Is she pregnant?

Was she bred by artificial insemination or pasture bred?

When will your project due to calf?

How did you select the bull you bred your heifer to?

Expected Progeny Difference: (Steer exhibitors and exhibitors with a breed that does not use EPDs must complete, using semen catalog or the internet as a reference.)

What are EPD's?

Describe what each category means? For example BW = Birth Weight, YW = Yearling Weight,etc.

What is the average for each category in the breed you have chosen?

How would you use this information in choosing a particular bull for your cow or heifer?

Beef Industry Involvement:

What demonstrations, talks, visits, or other activities did you take part in connection with your Beef project?

Investment Opportunity:

Animal Name :	Value at	Value if Purchased	Value at
_____	Year Start	During Year	Year End

1)_____ 2)_____ 3)_____

Inventory of Equipment and Supplies used on this project during year. For example, I have six head and I used \$24 dollars of shampoo. My project used \$4 of shampoo.

Item	Value at Year Start	Value at Purchase	Value at Year End	Note if Broken

Totals: 4)_____ 5)_____ 6)_____

Veterinary And Trucking Expenses:

What was done?	Who did it?	When?	Cost?

Total Veterinary and Trucking Expense: 7) _____

Feed Expense:*

_____ Total Pounds of Hay Fed x _____ (value per pound) = _____

_____ Total Pounds of Corn Silage x _____ (value per pound) = _____

_____ Total Pounds of Haylage x _____ (value per pound) = _____

_____ Total Pounds of Grain x _____ (value per pound) = _____

_____ Total Pounds of Grain x _____ (value per pound) = _____

8) FEED TOTAL _____

*Please attach sheet with monthly feed use, for example in January your steer ate 18# of corn mix grain, 2# of textured grain, and 5# of corn silage. So attached sheet should have January:

18 x 31 = 558 # corn mix grain

2 x 31 = 62# textured grain

5 x 31 = 155# corn silage

INVESTMENT OPPORTUNITY CALCULATION:

1) Value of Project at Beginning of Year _____

2) Cost of Project if Bought During Year _____

4) Value of Equipment and Supplies at Beginning of Year _____

5) Value of Equipment and Supplies Purchase _____

7) Cost of Veterinary and Trucking _____

8) Cost of Feed _____

TOTAL EXPENSES _____

3) Value of Project at Year End _____

6) Value of Equipment and Supplies at Year End _____

*) Income from Prizes and Awards for Project _____

*) Miscellaneous Income _____

TOTAL INCOME _____

TOTAL INCOME – TOTAL EXPENSES = PROFIT/LOSS

_____ - _____ = _____
